## INSTALLATION

Drain should be installed first.

**UNDERMOUNT:** Cuts in countertop are up to the discretion of the installer. It is recommended to use the actual sink for accurate cuts due to the handmade nature of the sinks. Clips or other installation method must be provided by the fabricator/installer.

Use silicone adhesive to adhere sink to countertop. Clean any excess silicone from sink surface.

## CARE

Mild soap and water for everyday cleaning. Avoid using harsh chemicals or abrasives, as well as anything acidic, such as vinegar or citrus, which will etch marble. A stone sealer should be applied once or twice a year to maintain the marble. Sealing repels staining agents, but doesn't make marble stainproof.

## WARRANTY

Linkasink warranties our product to be free from manufacturing defect for the life of the product. Warranty does not cover improper care, neglect or abuse.
